Dec 25/1871.

① Supdt's no 10 d/10/4/72.

The Chief Commissioner
having, in his orders
passed on the corres
noted in the margin, &
the introduction of the
old Bangalore Municipal
Rules to ^{the town of} Shimoga, the
late Superintendent of
the Nagar Division, submitted
a map shewing the
municipal limits of the
town as proposed to be
defined. The boundaries
were to be as follows:

East. From the Bridge
across the Donga to the
drain at Seegathully on the
West

West. From the drain at
Seegathully to northwards
to the South Eastern
corner of Major Palmer
Campound.

South. The right or the
South

South bank of the
Tonga River

Note. The line marked
A B C D E F.

2 The Superintendent also
submitted a statement
showing the assessment of
the land to be contained
within the Municipality
as above proposed, and
requested sanction to
the concession of the
sum therein entered.

In reply, the Mayor
Superintendent was ~~also~~
called upon, in this
Office no. $\frac{5787}{56}$ of 14th December
1872, to submit an
accurate survey report
of the proposed Munici-
pal area, showing how
it was held at ~~present~~
and on what terms
and assessment for
which a form to be
filled in was also then
forwarded

forwarded The
of the matter it was
added, had been
deferred in connection
with the orders of the
Govt. then passed
regarding the alienation
of state lands.

It in his no. $\frac{595}{205}$ of 19/2/74.

4. The map above alluded
to was returned, as
subsequently requested by
the Nagar Commissioner,
with this Office no. $\frac{6504}{100}$
of 26th February 1874.

⑤ With his no. $\frac{1028}{174}$ of 15/12/77

5. The Commissioner now
submits an accurate
survey ~~statement~~ with
plan defining the
boundaries of the
Shiwogole Town Municipality
and states that the
long delay in its
submission has been
owing to the details
required having
become available
only

may after the statement
of the Shimogaki Policy
and latterly to the
statements submitted
by the Dy Comm^r having
had to be returned
for correction and
explanation.

6. The Municipal
commission proposed may
be approved, and
with regard to
the introduction of
~~the~~ a set of Regulations
for the guidance
of the Municipalities
in the Mofussil,
I submit here
with the correspondence
of May 1876. It
was then in contempla-
tion to introduce
the Madras Towns'
Improvement Act III of 1871,
with certain modifica-
tions proposed by the
Law-a-Du-

7 I have looked
 over the papers and
 am of opinion that
 the Act may with
 advantage be
^{introduced}
 with slight modification.
 It is suited to
 local requirements.
 The Govt of India
 will have to be
 addressed on
 subject; but before
 doing so I may
 suggest that a Com-
 missioner consisting of

As there has already been
 great delay in the
 disposal of this matter,
 cannot the old Bangalore
 Rules be introduced
 also. To Himmatnagar,
 & the District Council
 report on the introduction
 of the Act for Mysore
 Prov. generally?

Is that done? 28.1.78

The old Bangalore Rules
 of Mangalore are in force now
 on 11 a but what is in contemplation is 26/1
 so Rules shall be in force in the

the present form of the
 Standard. Dr. Dr
 on the Part of the
 Mangalore Municipality,
 the Secy ^{may be} appointed
 to revise the Act &
 to propose such modifica-
 tions as may be
 considered advisable.

R.P.P.

Submitted to Ch. Comm
for orders. - MB
29.1.78

8 In accordance with
the orders passed on
para 6 of the foregoing
memo, the Municipal
limits

It is his Office no. $\frac{369^2}{361}$ of 21st
February 1878.

limits of the town of Shimu
as proposed to be defined
by the Commissioner of the
Nagar Division, were ^{it}
and he was requested
to submit a draft notifica-
tion on the subject for
publication in the Mysore
Gazette.

④ With his no. $\frac{315^2}{3}$, d) 12/7/78

9. The Commissioner now
submits a draft
in which the following
limits are ~~fixed~~ laid
down for the Shimoga Town
Municipality:-

North From and including
Singappa's Bungalow along
the Municipal Road to
the East including Mr.
Duncan Mackenzie's Bungalow
and the Executive Engineer's
Office, to the Hannak Road
at Survey No 30.

2. South. The Tunga River
from the Kuzumbi Road,
at the Gobee Pannah
inclusive, to the West end
of the Tunga Bridge

3. East. From the West end

of the Poonga Bridge along
the Momeali Road to
the north including
Soinichi's tank and Survey
No 30

4 West From and including
Rodiggere Mooroogandra's
Bungalow along the Sagar
High Road to the South
including the Silladar
Stables and Lines and
Survey Nos. 113 and 114 to
the Poonga River at the
Agumbi Road

10. The list may
be put in the
Gazette unless it is
considered ~~un~~ desirable
desirable 19/7/78

I propose
publication of the
Draft Mun & Rules on
the Govt are framed
by Govt of India

19/7/78

For the statement annexed
to the report of 15 Dec
which is to be the basis of
Survey & the land which
will be comprised in the
land & the permanently
alienated & the Municipality
of

11. In reply to the Secretary's query above, I beg to state that the total extent of the Survey aforesaid land comprised within the proposed Municipal limits is 693 acres and 25 quintas as shown below:-

Names of Villages &c Comprised within M.L. limits	Extent.						Assess- ment	
	Kharab.		Assessed		Total.		Rs.	as. p.
	Acres	Quintas	Acres	Quintas	Acres	Quintas

Total ~~Extent~~	513	29	179	36	693	25	203	"

Submitted for orders

Atthunboor

23/7/78
Mr. Saunders has in his hands
on page 6 of the Memo
approved of the Shimoga
Municipal limits but if this
arrangement involves the alteration
of aforesaid for land of the
extent above shown, the
former sanction of the
M.L. is necessary.

As the paper shows that
the Comm. proposes that
the ^{callpable} land - 17 - should be

the new limits not
applied over to the
Municipality, but the
revenue derived therefrom
to Ruffin 17 1877

The present proposal
is simply to define the
limits of the Municipality
It no doubt involves
^{either} the alienation of the
lands included within
such limits or the
apportionment of the revenue
derived from such
lands. - I think Indian
sanction to the alienation
is necessary. Please see
letter from Foreign B^r (Rev),
No 733 R of 30 June 1878.
At Mombasa
578/78

I have obtained & put up
the C.C. No (printed) of 10 June 1875
which are founded on the
instructions of Gov of India.

The Municipal limits as
now defined may be referred
to the Gazette - but the alienation
of the lands may require
the Order of the Govt & the
may be asked to submit a
Statement showing the area &
a list of the occupiers &
the occupiers' names, descriptions

under the several heads

7/8 1/4

10/4 7/8

Mem^d Memo: N^o 3
of 5/8/78

Amount does credit. A special grant will be made from available it monies which would be credited to Govt, for purpose of constructing the creeping channel recommended by Major Puckle for improving the drainage.

At report periodical Govt I am reported to a monthly ^{from my local sources} and finally as I consider it a mistake for the Govt to

a money payment ^{general resources/individual} and to leave contribution to hand. Moreover, a permission has already been given to assign such other dues as the Sup^r may advise for application to municipal purposes, as additional money is uncalled for

I would point out too that money realized by the sale of waste lands is not a regular source of income and cannot be depended on. It ought not the report to be taken in account in

General

Enclosures, No. 2

Rev. No 363-64
Rev. 131 Subject.

Forwarded for submission to the Sec^y - a report by Major Puckle concerning the Municipal requirements of the Town of Shimoga & making some observations on it.

Orders.

Done 11/1/64

The arrangements proposed are very satisfactory, and I have much pleasure in endorsing the same.
Wm. A. D. Halliday Sec^y

calculating baseball
revenue.

The scale of ^{assess} rates proposed
seems to me as low as could be
fixed. I see no objection to
the Municipal Fund being
credited with receipts from
Pound Rates ~~municipal~~ and
Fines for neglect on the part of
servants. The third item viz
Fines for infringing Municipal
Rules is said to have been
referred to the judicial court.

The draining project is
evidently one of great importance,
and should be carried out as
soon as possible, the road
to be advanced & to be adjusted
when the deposit account is
made up. The gardens
which still, it is hoped, be
formed on the existing drain,
should be rented out, as
proposed, on a sufficiently
long term to ensure the
ground being devoted to
that purpose.

Return the enclosures

Mysore Division
Superintendent's Office

From

Captain C. Elliot & B.

Superintendent of the

Mysore Division

To

Captain A. B. Hay

Secretary to the Commissioner
for the Government of the territories
of His Highness the Maharajah

Mysore

Sir,

I have the honor to forward herewith
for submission to the Commissioner the
accompanying report in original with
inclosures received from Major F. Buckle
Offg. Deputy Superintendent of Chinnaga
District since the submission of the reports
from the other Districts -

This is not only the most intelligible
report that has reached me concerning the
Municipal requirements of the town of Shingga
& bringing forward projects of great interest
& importance connected therewith but it
brings to light a very considerable number
of the inhabitants not only to
participate

from the establishment of a systematic
department for the management of Municipal
matters, but also liberally to contribute their
share of the necessary funds. The Acting
Municipal Council has exerted himself in a most
creditable manner under the experienced
direction of Major Pucke & as he has fully
observed & appreciated the nature & object
of the work proposed I now look for rapid
progress in the working out of schemes which
have hitherto suffered from delay in starting.

3. I beg to offer the following observations
on the points in Major Pucke's letter regarding
the Commissioners orders, premising that
General instructions have been issued
by me in all matters connected with the
Constitution of Boards at the different Ward
Quarter towns their duties, days of meeting,
method of record &c. very similar to what
is therein proposed.

The 1st point of the scale of rates proposed
to be taken as a guide in estimating the
contributions of the inhabitants, para 2]
This I have circulated to the other Districts,
requesting

requesting the Deputy Superintendents
to have the houses & shops in each street
numbered consecutively & a register
drawn up showing the estimated value of
each as taken by a Panchayet of guilds
or castes - The subscriptions will of
course be voluntary but it is hoped that
in this way, the desire to contribute something
however small, may become gradually
more general -

If the sources of Municipal revenue
enumerated in para 3 I would beg the
favour of the Commissioners consideration
as to whether (1) proceeds of pound fund for
the town, (2) fines for infringement of
Municipal rules (a report on which subject
has been submitted to the Judicial Commr
& (3) fines for neglect on the part of mu-
nicipal servants may not be added to
the items already sanctioned -

4. The project to which I desire especially
to solicit the attention of the Commissioners
however is contained in the 5th & following
paras of Major Puckle's letter -

A superficial excavation
probably supplied at some former period,
mud for building purposes to a large portion
of the town & which has until lately con-
tinued to be enlarged by the potters, extends
over a considerable area immediately behind
the main street of the town running
parallel to the river. In the time of
(I believe) Colonel Fusiow, an opening
was made between this & the river with a
view to drain off the water which collects
there during the rains & which filters
thru from the surrounding rising ground,
& convey it into the river but no attempt
was made to strike at the root of the evil
by preventing or opposing the accumu-
-lation of water - The consequence has
been that the ground remaining open has
become a perfect morass the receptacle
of a great proportion of the filth & rubbish
of the town; the water being imperfectly
drained has increased the evil; while the
river having access during some months
of the year thru the opening to the whole
surface

surface of the morass has continued to stir up at each fresh the accumulated filth keeping it in a constant state of agitation & exposing the whole town to its noxious exhalations during the greater part of the year - It has frequently been a subject of remark that the rainy season & the months immediately succeeding are the most unhealthy in Simoga & the with which Cholera & other epidemics when once they break out, hover the station appears to me to be not altogether unconnected if not directly attributable to the existence of the state of things above described & prominently alluded to in Major Puckle's letter -

5 The first object then proposed by Major Puckle is to take in hand this extensive nuisance & his proposal for its amelioration is neither costly nor difficult -

The swamp is first to be drained by cutting a leading drain in continuation of the opening into the river to run off accumulated water - (This has already been nearly accomplished by convict labour.)

mouth of the opening into the river, (which will be easily constructed, as it is bridged at the required spot) with a sluice to shut out the river at high water, & let out the water that may accumulate above, when the river is low.

It is next proposed to give out the land hitherto occupied by this swamp for cultivation on easy terms with Bows of say five years, or where it is desired to plant coconuts, 2) & persons with means sufficient at once to take up & convert the ground hitherto presenting so difficult a problem the existence of which is so injurious to the incultivated earth into garden land, are present & need await permission -

Further indicated drains to be worked following the contour, & above the swamp, in order to intercept the surplus water from above & carry it into the river. Other water from the low position of the town gravitating towards this swamp it is also possible to turn off into more desirable channels leading to the river. -

From

6. From the 16th para of Major Cuckle's letter the progress that has been made by available means in this work will be seen & I estimate its importance so highly and coincide so cordially in the plan proposed that I am induced to solicit the favorable consideration of the Commissioner to the request contained in Major Cuckle's 2nd para, namely,

that a special grant of £1000 in aid of this project be entertained to ensure the carrying out of the work in a complete & satisfactory manner.

7. There are I believe sums in the deposit account which in course of enquiry will fall to the credit of Government & had the papers been ready it was my intention to have, referred a request that part of these might be made available for this purpose, but as it is my firm conviction that the project now brought forward will strike at one of the prime sources of sickness in the town & as I have no little confidence in the energy & influence of the Amildar, to whose report enclosed I'vey to draw attention & who has fully entered into & understood the object, proposed & the method of carrying it out

Good reason to believe that working under
the direction & with the support of the Board
the money will be laid out to the best possible
advantage & if sanctioned & the more im-
portant part of the project commenced on-
ce there is time sufficient before the
 rains to complete the whole, - I have therefore
thought it right to lose no time in laying
the matter before the Commissioner for his
orders -

8. I beg the favour of your returning
the enclosures when no longer required -

I have the honor to be

For example by Rule 2
the offence of "allowing any
water to flow from any sewer
or carry into a surface drain"
is punishable by a fine of
Rs 3 - It must be perfectly
clear that if this regulation
could be enforced the drains
would not have to carry off
road washings - all house
refuse being retained in
cesspools - or fosse mobiles
in the Paris plan - which could
be cleared periodically

But on morning walk days
any street in Bangalore will
at once show that the Rule
is ignored in the breach and
the observance - On Friday
matters stand it is a dead letter
If more closely examined would
I have no doubt prove so too

10/1/1912

Wm. D. Dawson
Superintendent's Office
22nd April 1871

To

The Secretary to the Chief Commr
of Mysore
in the P W Department
Bangalore

Sir,

In reply to your letter No 270 dated the 17th January last, I have the honor to forward for the information of the Chief Commr. Copy of an Extract of Para 4 from the Proceedings of the Municipal Board Shimoga dated the 27th February last recommending the introduction of certain portions of the Bangalore Municipal Rules to the Town of Shimoga.

See Extract in
in office
J.R.

I have compared the Rules with the Town's Improvement Act No III of 1871 lately passed by the Madras Government and am of opinion that the latter Act modified and altered in some respects is better adapted for introduction into the Head Quarter Towns of districts and I would therefore recommend its being introduced in view of the Bangalore Rules.

Act III of 1871 seems to be much simpler both in substance and phraseology and to provide very effectively for all matters of Municipal Revenue and Administration required in these Towns.

I have not thought it desirable to
delay this reference in order to obtain
the views of the Dy. Superintendent
but if the Chief Commissioner considers
it probable that the Act in question
will be generally suitable, I anticipate
no difficulty in making such modifi-
cations as would be required.

I have the honor to be
Sir
Your most obedt Servant.

Exhibit of 4 Para from the Proceedings of the
Bd. Shainaga of 27th February 1871. 17

With reference to the introduction of
the Bangalore Bd Rules, into Shainaga
submitted in the Bd's Proceedings dated the
10th Decr. 1870, a copy of these rules was recd.
by the President under the Supts &
No $\frac{4156}{100}$ of 26 January 1871 and the Presi-
dent having carefully perused these has
selected certain portions therefrom, which
he considers applicable for the better
control & management of the Municipi-
-pality. - the native members having had
these rules explained to them have
concurred in their introduction and
the portions selected are as follows.

1. Definitions S.S. 2 to 3 inclusive.
2. Bd. Fund. S.S. 9 & 10 - ~~25~~
3. C.M. of Rates & Taxes, S.S. 85 to 94 inclusive
4. Genl. Conservancy of the Town & Suburbs
99 to 105 inclusive.

The Superintendent
Naga Division

Sir,

With reference to your letter ²⁰10
of the 6th April 1892 to the address of
the Secy in the P.W. Dept on the subject
of defining the municipal limits
of the Town of Shimoga, I am desired
by the Chief Commr to request that
you will be good enough to submit
an accurate survey report of the
proposed municipal area, showing
how it is held at present, and on
what tenure and assessment for
which a form has been filled in & forwarded —
2. The settlement of this matter
I am to add, has been deferred in
connection with the recent orders
of Govt regarding the alienation
of State lands.

Superm^{ts} office

To,

Camp Amantth 16 Dec/77.
19th

The Secretary to the Chief Comm^{rs}
of Mysore D.M.
Sir,

In submitting herewith copy
of the Proceedings of the Municipal Board
Shunogah, dated the 18th ultimo, I have
the honor to state with reference to para-
2, that in accordance with your in-
structions conveyed in letter No 87 of
the 7th April/69, the Municipal house
tax in the town was reduced by half
and an octroi duty of 5 per cent ad valorem
was imposed instead, as an experimental
measure. From the experience gained
during the last two years, it appears
that though the realizations from duty
on piece goods at present considerably
larger than those from house tax,
which was proposed to be abolished in
the event of the octroi proving
sufficient

of the heaviness of the duty. The goods
are sold in large quantities
in the neighbouring towns & villages,
where they are exempt from duty, and
thus the Municipality is deprived of a
portion of its legitimate income. The
Board therefore propose to remedy
this by reducing the duty from 5 to 2 %
experimentally, which they think would
induce traders to bring into the town, all
their piece good imports, and anticipate
from this more income than has been
hitherto derived from the 3 per cent
duty -

Under these circumstances,
the recommendation may be approved
of, as an experimental measure, re-
taining as at present the moiety of the
tax on houses pending further consideration.

As regards para 3, it is very
desirable that a man should be
employed to take care of the Annual
Grounds

grounds, which are three, 2 Protestant
and 1 Roman Catholic, funds being
provided for this purpose from the
Municipality

Para 4 The division of the Town into
Districts for the purpose of registering
births and deaths through the agency of the
Police, has my concurrence.

With regard to Para 5, the Chief
Commissioner having objected in your
No 3022 dated the 1st May last, to the
introduction of the Madras Towns Im-
provement Act No III of 1871, the Bangalore
Municipal Rules have been laid before
the Municipal Board and the members
have no objection to their introduction,
the Chief Commissioner's sanction to
which, is requested.

I have the honor to be
Sir,
Yours most obed^t Serv^t

W. S. S. S.
Superintendent
C. S. S. S.
Mysore Division

| 4 | Mailyappa _____ | |

1 The accounts have been read and found to be correct

2. The question whether the duty on piece goods imposed under instructions conveyed in Secretary's letter No 37 dated 7th April 1869 instead of the ^{P&D} House Tax should continue to be levied or not has been laid before the
All the correspondence connected with it has been read and explained to the members.

On reviewing the accounts it was that the collections under "piece goods" were larger than those under the "House Tax". Taking into consideration the largeness of the population and the consumption of clothes by the they are confirmed in their impression that most of the town people purchase their su of clothes from the traders who prefer keeping and selling their things in the village at a contiguous to this town and thus avoid paying

high, being 5 percent. The members of the Board do therefore expect a remarkable increase in the Revenue should a reduction be made in the rate in question.

Resolved that the Superintendent be moved to reduce the rate from 5 to 2 percent as an experimental measure for one year longer, till then the House Tax being retained as at present.

3. Read Superintendent's docket No 409 dated 6th November 1871 about employing a person to look after the Protestant Cemeteries at Shimoga out of the funds of the Municipality, if possible. In the Budget Grant for 18-71 a sum of Rupees 500 is provided for under the head "other items". Out of this sum 25-10-2 have been utilized from the commencement of the financial year up to this date leaving a balance of Rupees 274-5-10; a sum of Rs 50-0-0 would in the opinion of the Board, be more than enough for the next four months, there being still a balance of Rupees 224-5-10. The members unanimously agree that a man may be conveniently entertained at 5 Rupees per mensem, the charge being met from the said head.

4. Read Superintendent's Circular No 278 of 9th September 1871 requesting the Board for an expression of their opinion with regard to the introduction of the system followed in Bangalore in respect to the Registration of Births & Deaths into Shimoga.

After carefully weighing the question, the members of the Board do agree as to the advisability of at once bringing into force here the said system.

That a district be formed with reference to the Tannahs of the Town.

That the Sudder of each Tannah be appointed a Registrar of his Circle.

That the Inspector of the Police be directed to supervise the working of these Registrars, every now & then.

That the Amildar be the general ^{superintendent} and submitter of the Register of Births & deaths throughout the Town to the President of the Municipal Board.

That the foregoing arrangements be made as an experimental measure until the expiration of one year, as it is doubtful whether these Tannah Sudders would carry on the duty to satisfaction.

5. Read the Municipal Rules of Rajp. placed at page 56 of the Bangalore Almanac for 1870 and carefully considered the question of introducing the same into the Town as proposed in the Superintendent's document No 208 dated 3rd August 1871.

The members having heard the rules in question, explained considered them very feasible and consequently are of opinion that they may be at once introduced.

discuss adjourn. until the next meeting
